

“The Hand of God”

Verse 1:

In my mind
Consumed with fear and strife
And never knowing that there is a way

In the night
I'd lie and shake with fright
Then feel the Hand of God upon my face

Chorus:

We know
That we can make it
If we
Only can take it
The Hand of God

Verse 2:

In my life
I left the past behind
I know that Jesus Christ He is the way

In the light
I feel the peace inside
Then feel the Hand of God upon my face

Repeat Chorus

"Lines in the Sand"

Verse 1:

Everything's extreme
there's no compromise
Temptation's our disease
And there's no end in sight

Pre-Chorus:

How much farther can we run
Til the truth it cannot teach us
How much farther can we fall
Til the light, it cannot reach...

Chorus:

We're drawing Lines in the Sand
Because we've gone too far
Lines in the Sand
But we don't know what they are
Drawing Lines in the Sand

Verse 2:

Shocking as it seems
It should be no surprise
We promote such things
When we can't tell wrong from right

Pre-Chorus:

And we say we've had enough
After generations
Think it's time that we get tough
On these moral reprobates...

Repeat Chorus

"Cleansed"

Verse 1:

I want to live
Steadfast in faith
Lord, help me see
Your infinite grace

His precious blood
Has washed me clean
My debt was paid
Upon the tree

Pre-Chorus:

Often tempted, often tempted, often tempted, I refrain
Often tempted, often tempted, often tempted I remain

Chorus:

Cleansed in Blood, Cleansed in Blood, Cleansed in Blood
Jesus Saves, Jesus Saves, In His Name, Cleansed in Blood

Verse 2;

The Wage of sin
Is certain death
Take shelter from
The coming wrath

No need to fear
The coming days
Through faith in Him
The soul is saved

Repeat Pre-Chorus

"Owe my Life"

Verse 1:

I--stand here contemplating
You--it's so fascinating
How--can you stake your claim when
We--are nothing more than slaves

Chorus:

And I owe my life
To the One who gave His
That I might live

And I owe my all
To the one who did fall
That I might give
My life to You

Verse 2:

We--should consider it all
Loss--that we might take up our
Cross--and to die is gain in
Life--and to live is Christ

"Slaves to the Machine"

Verse 1:

How long have we been here?
I can't explain
Inside this twisted
Gilded age

The walls around us
Disengaged
Thoughts manipulated
Rearranged

Pre-Chorus:

We don't think, we only think we do
Seeing through another's point of view

Chorus:

Will it ever cease, we remain Slaves to the Machine
Praying for release, we remain Slaves to the machine
Trapped behind the pane, We remain slaves to the machine
Going insane, we remain slaves to the machine

Verse 2:

Staring into sunset
Waiting for
Got to find the right way
Something more

The truth against us
Realized
Life is not worth
living in a vice

“Spiritual Eyes”

Verse 1:

I have tried to make it through this life
On my own
I've been tempted to give up the fight
'Cause I felt so alone
But now I know I'll never be the same...

Chorus:

I see through Your eyes
I see things as they are
I see through spiritual eyes
As unseen battles rage on

Verse 2:

For we wrestle simply not against
Flesh and blood
And I pray I won't be caught again
Off my guard
Give me strength that in that day I'll stand...

Repeat Chorus

Bridge:

And now I know
That I'm not alone
You are standing by

You're there
Wherever I go
And You hear my cries

Repeat Chorus

"The Brutal Truth"

Verse 1:

I refuse to play your games, pretending what you're not
All along your reckless way, defending what you want
Your motives are unfeeling, your methods are unsound
Your twisted inspiration--isn't so profound

Chorus 1:

The Brutal Truth
Your futile lies
The Brutal Truth
Kept in disguise

Verse 2:

Toying with emotions--keeps you satisfied
Shifting your devotions--oh so pacified
You will find yourself someday, never more alone
For the sins committed--works cannot atone

Repeat Chorus 1

Chorus 2:

The Brutal Truth
Upon my lips
The Brutal Truth
Could be death's kiss

The Brutal Truth
Will free us all
The Brutal Truth
Is your downfall

"State of Mind"

Verse 1:

I have no choice
It's time to voice
All my feelings
And emotions

Pre-Chorus:

Waiting for the light of day, to shine upon my face
In this state of disgrace
Moving through and passing by, the time is drawing night
To put things in their place

Chorus:

State of Mind, a minded state
You once were lost, but now you're saved
Your thoughts are right, the word is true
So free your mind, and make your move

Verse 2:

You have no way
Your heart won't say
Your fate sealing
Foolish notions

Pre-Chorus:

Waiting for the day of light, to give you second sight
In the darkest of nights
Passing by and moving through, all your fears are coming true
There's no reason to fight

Repeat Chorus

“Return to Me”

Verse 1:

Seeking the seeker
Losing sight of the prize
If losers are weepers
Someday we'll be crying out our eyes

Losing touch with
The truth that we know in our minds
Sacrificing
On the altar of compromise

Chorus:

The voice cries out
Return to Me
And the rocks shout
In irony

A flame goes out
So desperately
The voice still shouts
Return to Me

Verse 2:

Breaking backs to
Keep up with the latest trends
A chosen nation?
Us and the world, we're the best of friends

What are we here for?
We've forgotten our first love
Passing the plate and
Filling our coffers with blood

Repeat Chorus

“One Nation Under God”

Verse 1:

A dream conceived with good intentions, birth of a nation realized
We'll build it on a strong foundation, our Hallowed Father will provide
In the name of freedom we will build our holy refuge
A city on a hill to show the way
Every man is measured by the weight of the Creator
We won't forget the place from which we came

Chorus:

A chosen people filled with pride, to promote our way of life
Never questioning our cause, we're One Nation Under God

Verse 2:

A struggle to preserve the vision, the battle rages age to age
By whose will was it created, divine or human hands did make
In the name of freedom we defend our holy refuge
The city on a hill begins to fade
Every man is measured side by side to one another
Do we know the place from which we came?

Repeat Chorus

Verse 3:

Is it truth or is it fiction, was the dream reality
History has been rewritten, it's our greatest fallacy
In the name of freedom we've defiled our holy refuge
The city on a hill is now decayed
Every man is measured by the weight of his creation
We've denied the place from which we came

Chorus:

A chosen people filled with pride, to promote our way of life
Ever questioning our cause, we're One Nation without God
A chosen people stripped of pride, to preserve our way of life
Bowing down before the Cross, we're One Nation Under God

"Fatal Flaws"

Verse 1:

Hopeful monsters in the closet
Turn science fiction into fact
Or is it something less creative
Pushing me off of the track

They say that they believe in nothing
But I don't think I agree
Putting faith in superstition
Nothing more than fantasy

Chorus:

The fatal flaws in this mystery religion
Require more faith than I have
The fatal flaws in this endless contradiction
Leave without a leg to stand

Verse 2:

Moving from the ever simple
To the endlessly complex
Defies the basic laws of science
Not to mention common sense

Everything from out of nothing
We know that nothing's ever free
Maybe there was a Creator
Or is that too much to believe

Repeat Chorus

“Wake Up”

Verse 1:

Nations gripped by fear
Techno fallout scare
Atypical year
Technical nightmare

Economic crash
Eminent they say
How long will it last
To tell there's no way

Chorus:

Wake up to the sound
The world is crashing down
Wake up to the sight
War in paradise
Wake up it's the time
To speak out our minds
Wake up here's the proof
We speak out the truth

Verse 2:

Ignorance will blind
The eyes to what they see
Arrogance denies
The possibilities

Prophecies spelled out
In ancient books of old
If the time is now
The future will unfold

Repeat Chorus

"Prove"

Verse 1:

What is this that we claim to be
Something more than the eye can see
Are we deceiving ourselves, too
Is something left for us to prove

Chorus:

Prove

Verse 2:

So near and yet so far away
From where we hope to be someday
The things we say and things we do
Can we not reconcile the two

Repeat Chorus

Verse 3:

So bright an analytical
And yet so hypocritical
Suddenly we're a party to
The things we said we wouldn't do

Repeat Chorus
